Birthday Date : 22/May/1995

SKILLS

Computer Knowledge

- Solid Work , NX , Auto Cad
- Microsoft Office
- Arduino Program
- PLC Program and Robot 6 Axis
- Python (AI) Program

WORK EXPERIENCE

April 2018 - April 2020

Mechanical Engineering (Strat Up New model) at
[CANON HI - TECH LTD.](#)

- Follow Part New model, Track Problem, Prepare to Support New model
- Issue documents flow Assembly to support Production line.
- Improve Follow Jig & fixture (Support production line for reduce time and problem in Assembly line.)

April 2020 – Sep 2022

Development & Project Control. (Design jig & Fixture) at
[Panasonic Manufacturing Ayutthaya Co., Ltd.](#)

- Design Jig support Assembly line (New model and Improve problem, reduce time.)
- Design Jig automation for assembly line (Work Section: Mechanical Design.)

Sep 2022 - Present

Automation and Innovation Development Engineering at
[CANON HI - TECH LTD.](#)

- Design Machine Automation for Improve Process Production Input Automation Substitute People (Improve Process Injection Machine)
- Design System (Digital Transformation (DX) and IOT) for Help data Analysis (Real time) and Manage documents.

EDUCATION

King mung kut's University of technology north Bangkok
Bachelor's Degree in Production and industrial Engineering
Expected graduation, June 2017
